Fing of the North German Confederation. An unusually interesting ceremony took place on Saturday noon last at the residence of Theo. C. Heuck, Esq., who has been recently appointed and recognized as Consul for the North German Confed-31, 1828. He was appointed to labor at Lahaina, and eration. A tent had been erected in the yard near to be associated with the Rev. Mr. Richards. In 1881 the flag-staff, which, at the appointed hour, was the Mission assigned to him the important work of well-filled with several hundred guests, including His Majesty's Ministers, Gov. Based upon this feeling is our conviction that you will kindly countenance our patriotism on a day like this, when we Germans—whether as maturalized subjects or foreign residents express our love towards our native country from the bottom our hearts, and when we look upon this Flag as a sign and symbol of a glorious future, (which may God biess,) as the first grand step towards an UNDIVIDED, UNITED GERMANY.
Gentlemen: Accept this Flag, and give it place in company with yours, and we pray-yes, we are sure, most sure—that there can never be any misunderstanding between us; that it impossible there shall ever be any other emulation among us han to see how we can outdo each other in all that is good,

Miss Dora Heuck, assisted by Captain Hattermann, of the Bremen packet R. C. The "Percussion Match Company" of San Francisco has just commenced the manufacture of a superior quality, a sample of which we have received through Messrs. DEATH OF REV. LORRIN ANDREWS.-In our last issue we briefly stated that Judge Andrews lay in a critical condition, under an attack of pleurisy. He died on Tuesday morning, after a week's illness. During the last two days he was in an unconscious state, which continued till death released his spirit from its tenement of clay, literally "falling asleep in Jesus." He was a native of Connecticut, born in 1795, which made him in his 74th year. From an obituary in the Friend of October 1 we make the fol-

About 1840 his mind was so strongly impressed with the iniquity of the system of American slavery, that he resigned his position as a missionary of the American Board, because funds for its support were received from the Slave States. For several years he maintained a large family, and continued to labor for the good of this people, sustaining himself by methods requiring a faith like that of Elijah when fed by ravens. In 1844 he officiated as Scamen's Chaplain at Lahaina. In 1845 he removed to Honolulu, and received the appointment of Judge under the Hawaiian Government. Although of late years his labors have been less public than formerly, yet his mind and pen have been constantly occupied, and at times he has employed a native amanuensis. His daughters have not unfrequently rendered him important service. His Hawaiian Dictionary, defining learly 17,000 words, afforded him many years of hard literary labor. His research into the ancient history, meies, or songs, and literature of the Hawaiian people, was far more extensive than that of any other American missionary. We shall no longer meet him in our streets, or chat with him in our sanctum, where he would often drop in and spend an hour. As a scholar, he was thorough and profound. He wished to search out the "roots" of every subject he investigated. In the matter of music, he knew the method of its composition. As a preacher, he was sound and logical. Fifth-In the cargo of the Idaho were 9,500 bags under No 12 by original impurities, and 2,900 bags made, as we suppose, under No. 12 by the intentional mixture of impurities so as to be unfit for consumption without refining.

mark-a large stroke, nine inches long and one inch broad, on each bag, with red paint, Seventh-It is the duty of the Custom House Appraisors examine all sugars imported, and to declare the grade and assess the duty. It is, with respect to these 2,900 bags, for them to say whether the sugar is under or over No. 12, and charge duty accordingly. (It involves a question, so far as this cargo is concerned, of \$1,200, more or less.) If we are dis-

tisfied with their appraisal, we appeal.

"Eighth—We have notified the Custom House authorities that it is our intention to import these sugars continuously." In further explanation of the matter, and for the information of planters in the islands, Mr. Gordon adds:-" Our contracts with the Sandwich Island planters bar us from selling grocery grades of sugar. Grocery grades of sugar do not pay to import for refining purposes. We deem our right indisputable to do what we please in Honelulu, and bring them to the United States. We present them to the Government Appraisers simply as sugar, to put their own values of what we present. If we entered them as sugar of any particular grade, there might be something to object to, but we submit them on their face and ask their appraisal for duty according to law.

Whether any companies, white or black, so organized, will be actually called into the field will depend entirely on the conduct of the people themselves in the several counties. I earnestly hope there will be no occasion to call out these troops, but that the efforts of all citizens to preserve the peace will succeed, and thus obviate the necessity for this stern resort; but if, unhappily, better counsels do not prevail, and order is not restored, and I compelled to put down armed murders by force, I propose to meet them with such numbers and in such manner as the exigency shall demand.
